

Import Consolidation Shipments

If your consignment is arriving via consolidation the following details will assist you in understanding the import process and timeline for arrival till final delivery.

Procedure

The following procedure is the common path for all imports to follow, however this is subject to some irregularities based upon transfer of information which can create delays while your consignment is moving through the import system.

Your agent should give us a minimum 7 days notice prior to arrival, including vessel name and container number

- Notification from your overseas agent of pending arrival
- Dispatch of Import documents
- Processing of your documentation and preparation of customs forms for inspection
- Vessel arrival at UK Port
- Presentation to Port Authority and await formal release to our facility
- Unloading of container, inspection and release to import coordinator
- H.M Customs clearance and release
- Import coordinator arranges transport / delivery of your Import

We can only start organising your delivery once your consignment is in our warehouse and available for dispatch, until that point no dates can be scheduled. Please do not delay in returning your customs forms.
